## ACCUPLACER Exam Preparation

Preparing yourself for the ACCUPLACER Exams by reviewing the study materials and taking practice tests can save you time and money. Your performance will determine your ability or inability to take college level courses. The target scores are: Elementary Algebra-67; Reading Comprehension-61; WritePlacer-5.

ACCUPLACER has developed a web-based study app to help students become familiar with the style and content of questions in ACCUPLACER tests. The app provides access to interactive sample questions and immediate explanations to correct and incorrect answers. Students can practice for the Elementary Algebra, Reading Comprehension and WritePlacer tests. **The web-based study app is free and can be used on either a computer or a Smartphone.**
