AMSC Trailblazer Family:

As we manage this ever-changing situation with the Coronavirus Disease 2019 (COVID-19), our primary goal is to protect students, faculty, and staff. One of the most important preventative measures is to avoid having people gather in large groups as advised by the Georgia Department of Public Health and the Centers for Disease Control and Prevention (CDC). Accordingly, we are canceling all public events planned for spring semester, to include our planned Commencement Exercises scheduled for May 8, 2020. We are beginning discussions now on what options we might still have to celebrate our graduates’ accomplishments, which will be communicated to you as details are available.

Students will still be able to graduate, consistent with academic standards, but the actual spring ceremony will be cancelled.

We understand how disappointing this new is. We are appreciative of everyone’s cooperation and understanding as we work through this very difficult situation.

Dr. Georj Lewis
President
